MEETING LOCATION: St. Paul West District Police Department

I. Committee Updates

- Looking for INCITER Ped/Safety Committee Technical article for May edition

II. Stop For Me Campaign

Jeremy Ellison and Kevin Gallatin presented on the topic. Stop for Me is a program that enforces pedestrian yielding in St. Paul.

Problem:
- Trying to change driver behavior through enforcement
- A crash occurs nearly every other day in St. Paul
- Most common response is that driver didn’t see pedestrian
  - What can be done to fix issues?
- Seeing an increase of pedestrian crashes
  - St. Paul Police maintains collective database of CMAT and reported crashes
  - Could be from actual increase or better collection of data
2017 Executive Committee

Mike Martinez, P.E.
President
HDR, Inc.
701 Xenia Avenue S, Suite 600
Minneapolis, MN 55416
michael.martinez@hdrinc.com

Scott Poska, P.E., PTOE
Vice-President
SRF Consulting Group, Inc.
1 Carlson Parkway N, Suite 150
Minneapolis, MN 55447
sposka@srfconsulting.com

Jeff Preston, P.E.
Secretary
Stantec
2335 Highway 36 West
St. Paul, MN 55113
jeff preston@stantec.com

Jacob Folkeringa, P.E.
Treasurer
SRF Consulting Group, Inc.
1 Carlson Parkway N, Suite 150
Minneapolis, MN 55447
jfolkeringa@srfconsulting.com

Nick Ollrich, P.E.
Director
Metro Transit
5514 West Broadway Ave
Crystal, MN 55428
nicklaus.ollrich@metrotransit.org

Abigail Rieckman, P.E.
Director
Alliant Engineering, Inc.
233 Park Avenue, Suite 300
Minneapolis, MN 55415
arieckman@alliant-inc.com

Mark Wagner, P.E.
Director
SEH, Inc.
3535 Vadnais Center Drive
St. Paul, MN 55110
mwagner@sehinc.com

Joe Gustafson, P.E., PTOE
Past President
Washington County
11660 Myeron Road
Stillwater, MN 55082
joe.gustafson@co.washington.mn.us

Events-
-Goal is to increase awareness and decrease crashes
-Media often helps get word out of events
-2016 goal was to have 34 events – ended up having 60 events
-Offenders and passer-bys are given cards on pedestrian and driver safety

Improvements to the campaign-
-Amount of signage and events could serve as a driver distraction
-Increase diversity of location selections
-Higher diversity in community participation
-Statewide issue – How to apply these methods to larger scale
-Attorneys’ from the City helping would be beneficial

Partnerships-
-TZD
-St. Paul Walks
-Safe Routes to School
-City of St. Paul
-St. Paul District Councils

Engineering Strategies to Mitigate Crashes-
-4-3 Lane Road Diet
-Leading Pedestrian Interval at signals
-Test Lane Marking Installations
-Centerline Pedestrian signs
-Dynamic Speed Warning Signs
-RRFB’s
-Pedestrian Refuge and advanced stop Bars
-Test bumpouts

Future Engineering Goals-
-MnDOT/U of M study on behavior change
-Develop city wide pedestrian plan
-Higher number of events on State and County Roads
-Increase Safe Routes to School Participation

Future Goals and Plans-
-Hiring a City of St. Paul Pedestrian Advocate
-2017 Corridor Plan
-Overreach across state

www.nc-ite.org
Discussion Points-
- Most delineators are removed for the winter
- Crash Mapping doesn’t report near-misses and pedestrians don’t often report them either
- Non-resident vs resident behavior – do commuters behave differently when not in their own neighborhood?
  - Not studied extensively, but expected
- Radio ads aired in Metro area aim to help mitigate
- Campaign doesn’t track crash types and adjust message accordingly. Could be too time consuming, and a general message might work better for the public.

III.  Round Robin

Tyler- ASCE Protected Bike Lane Design Webinar taking place March 23rd
Jason- Glenwood Avenue getting bike lanes and Excelsior/Lake receiving funding as well

NEXT Ped/Safety MEETING:

Date: Wednesday, April 26th (1:00-2:30pm)
Location: MnDOT Water’s Edge
Topic: Pedestrian Crossings and Unconventional Intersections

Minutes Submitted By: Tyler Krage
Pedestrian Safety Campaign

The Problem
The Problem

- A pedestrian or bicyclist is struck by a vehicle every other day in St. Paul (.84 per day)
  - This doesn’t account for the near misses or those that don’t report crashes to police
- Drivers’ most common reason for not stopping (or hitting a ped during crash investigation) is that they did not see the pedestrian
- Enforcement or Engineering alone won’t solve the problem
  - Need a team approach with buy-in from the community
MN Pedestrian Crossing Statute

- Commonly referred to as a “new law”, actually dates to 1937

**ARTICLE X
PEDESTRIANS’ RIGHTS AND DUTIES**

Sec. 52. Pedestrians right and duties.—Pedestrians shall be subject to traffic-control signals at intersections as heretofore declared in this act, but at all other places pedestrians shall be accorded the privileges and shall be subject to the restrictions stated in this article.

Sec. 53. Pedestrians to have right-of-way in certain cases.—
(a) Where traffic-control signals are not in place or in operation the driver of a vehicle shall yield the right-of-way, slowing down or stopping if need be to so yield, to a pedestrian crossing the roadway within any marked crosswalk or within any unmarked crosswalk at an intersection, except as otherwise provided in this article.

(b) Whenever any vehicle is stopped at a marked crosswalk or at any unmarked crosswalk at an intersection to permit a pedestrian to cross the roadway, the driver of any other vehicle approaching from the rear shall not overtake and pass such stopped vehicle.
Crash - Life Long Impacts

• “Statistics are human beings with the tears wiped away” – many sources
  ▫ Every crash has a story, an impact on those involved and their families and friends
  • Video of Test Crash #1 (Crash Test Dummy)
  • Video of Actual Crash #2 (WARNING!)
Crash - Life Long Impacts

- Video of Test Crash #1 (Crash Test Dummy)
Crash - Life Long Impacts

Pedestrian Crashes in Saint Paul

Incapacitating and Fatal Pedestrian Crashes in Saint Paul

Source: Minnesota Crash Mapping Analysis Tool Data
Crash Data Collection - Dissemination

- MN Crash Data / MN CMAT
- 911 / non-emergency calls – daily query (no reports made)
- Social Media / Other Sources of Information
- Analysis – St. Paul Open Data Portal
Data Points – Public Google Map

https://www.google.com/maps/d/viewer?mid=15ZWag-PczAyksObhYLKKhvXQuXs
Pedestrian Safety Events

2017 Goals
- Increase awareness regarding Ped/Bike safety
- Reduce the number of ped/bike crashes
  - Specifically fatal & serious injuries
- Change driver behavior to increase compliance with crosswalk law
Media / Publicity

• Communications Working Group
  ▫ Detailed Press Releases
  ▫ Local Papers, On-Line Bloggers, Main Stream News Media, etc.
  ▫ Social Media - Twitter / Facebook
• Inviting City Council Members, Mayor, other dignitaries that will attract attention
2016 Pedestrian Safety Events

- Goal = 34 Events
  - 2 in each District Council

- Actual = 60 Events
  - Some locations had multiple events

- Total Citations Issued
  - 637 – Fail to Stop for Pedestrians
  - 400 – Other Violations

- Warnings Issued
  - 64 – Fail to Stop for Pedestrians
  - 19 – Other Violations
Pedestrian Safety Events
- Driver Response Collection Process

- Officers do the following for every vehicle stop during a pedestrian safety event:
  - Provide a MN DOT Pedestrian Safety Card
    - Motorist / Pedestrian safety tips
  - Discuss violation and ask “Why didn’t you stop for the pedestrian(s)?”
    - Record the answers using the “STEP” log for data analysis
    - Over 80% response = “I did not see the pedestrian”
  - Issue a citation or verbal warning based on circumstances
Best Practices

- Education + Enforcement = Changing Behavior
  - St. Paul Police Department provide enforcement
  - St. Paul District Councils & Community Volunteers provide education
- More than 1 E to solve the problem
  - Work closely with Engineering
- Summary reports done for every event
  - Reviewed by Steering Committee and City Engineers
  - Provides Immediate feedback to community
- Funding Options, commitment
Opportunities for Improvement

- **Feedback**
  - Distractions / sign placement
  - Hi-Visibility Enforcement Signs
- **Diversity / Equity**
  - Location Selection
  - Community participation
- **Statewide Issue**
  - Majority of drivers who crash into pedestrians and bikes in St. Paul are not from St. Paul
- **Court**
  - Hearing Officers, City Attorney’s Office, Perception
Materials

• District Council volunteers created a toolkit to be distributed to all event participants.
  ▫ Toolkit included resources available to volunteers and described how to coordinate and promote crosswalk event.

Safety was stressed at all events.

• MnDOT provided pedestrian safety cards and banner.
• St. Paul Walks provided bumper stickers.
  ▫ All city vehicles, Mayor and City Council commitment
Partnerships - Key to Success

• Increased participation through partnerships
  ▫ St. Paul Walks (Smart Trips)
  ▫ MN Toward Zero Deaths
    • Susan Youngs (Metro TZD Coordinator)
  ▫ St. Paul District Councils
  ▫ City of St. Paul
    • Public Works
    • Planning and Economic Development
    • City Council
    • Police
    • Office of Technology & Communications
  ▫ Safe Routes to Schools (funding)
Engineering

- Roadway Safety Plan
- Street Design Manual
- 4 to 3 Lane Conversion
- Leading Pedestrian Interval (LPI)
- Test Installations
Centerline Pedestrian Signs

- 40 Signs
- Deploy May thru November
- 3- 4 Weeks at one location
- Education Tool
Dynamic Speed Display Signs

Permanent

Temporary
Rectangular Rapid Flash Beacon (RRFB)
Speed Sign & RRFB
Pedestrian Refuge Median & Advanced Stop Bar
Test Pedestrian Safety Improvements
Future Engineering Goals

• Use research based solutions
  ▫ Gainesville, Florida Example
    • Low cost, but highly effective fixes
    • Advanced stop bars
    • Gateway treatments
  ▫ U of M / MN DOT study
• Develop Citywide Pedestrian Plan
• High Percentage of Crashes happen on State and County roads
  ▫ Engagement of partners and make changes
• Safe Routes to Schools
  ▫ Schools are in nearly every part of the City, focusing on schools will result in safety for the entire city
Future Goals and Plans

• 2017 Pedestrian Safety Advocate
  ▫ Reports to Public Works
• Vision Zero / TZD
  ▫ City Council Resolution and Plan
• 2017 Corridor Plan
  ▫ 2/3 Corridor Events
  ▫ 1/3 Neighborhood complaints
• Increased education / outreach
  ▫ Metro Wide Outreach (Minneapolis)
• Target Captive Audiences
  ▫ Parent drop off areas
  ▫ More education focused
